Based three miles from Angkor Wat, ABOUTAsia is now the leading tour specialist for Cambodia, Vietnam and Laos. Local positioning and uncompromising dedication to service standards has made ABOUTAsia the trusted partner for a growing list of the world's top travel designers seeking to differentiate their product away from more generalist DMCs.

Considered by both CNT and T+L as the top advisor for Cambodia and winner of a Global Vision Award for bringing travel benefits to communities the business is setting new standards for responsible travel. Since inception in 2009 profits have gone to local programs, supporting the education of thousands of Cambodian children through schools and community centers. The resulting passion from local communities and employees alike creates outstanding opportunities for memorable travel experiences. Travel changing lives through life changing travel.

The media has focused on ABOUTAsia's crowd avoidance research and development programs. As visitor numbers climbed, guides' talents alone no longer guarantee the 'wow factor' of Angkor for the more discerning traveller. ABOUTAsia's own innovative guidebook has quickly become the best-selling field guide to Angkor and an International Book Awards finalist. Naturally a close connection with academic specialists enhances many temple visits for their guests.

Experiences continue into the evening through destination dining opportunities at Chandara, our private countryside villa. Unexpected refreshments in remote temples; sunset drinks on ancient waterways: This is a return to a romantic, slower pace of travel with time to think.

We have now expanded our local experience into both Laos and Vietnam, creating the ultimate way of experiencing Indochina.
