### LET'S DO THIS TOGETHER

We run hotels - lots of hotels in lots of countries.

We believe that they are unique and unlike most other hotels. We are proud of how big our brand has grown over the years, but it's still important to us to maintain personal relationships with all our partners and all the neighbourhoods we're a part of.

We're not afraid of craziness and nutty ideas: without them, we'd be boring! So far, we've managed to avoid that.

Experience it for yourself in every 25hours hotel, from food and drinks to the interior design concepts that go far beyond the usual hotel styling. And the biggest difference of course is found in the people who work, stay and spend time at 25hours Hotels.

Where is this taking us?

A 25hours Hotel in every cool city.

That's our vision.

We're happy that you are part of it.

### DIET COMES FROM DIE.

We love eating and drinking, so that's why both of them play such an important role at 25hours. We are thoroughly convinced that important decisions should be discussed over a good meal or whilst enjoying a drink. 25hours has a rich portfolio of restaurant and bar concepts. The varied cuisine on offer ranges from Israeli street food to authentic Neapolitan pizza to French cuisine in a relaxed atmosphere and Indian specialities from Tander.
